

**Plane Slams
Into Houses;
6 People Die**

MINNEAPOLIS, June 9 (UPI)—A crippled navy jet fighter, struggling desperately to reach the airfield, crashed into houses today, killing the pilot and five other persons. At least a dozen were injured.

The "Panther" jet, piloted by a 20-year-old pilot, flew low over a home just north of Wild-Chamberlain Field and exploded. Falling fuselage and showered flaming fuselage on five other houses in the same block.

Twenty-four children; among nearly 20 playing in the yards ran screaming to their parents, their clothes singed. Some were severely burned. One was critically burned. The other two suffered superficial burns. Five adults were treated for shock and minor injuries.

The plane had been demilitarized in an orange fireproof. FIVE bodies including that of Maj. FIVE George E. Armstrong, 20, were recovered from the plane.

A deputy coroner said the bodies of the four civilians taken from the demilitarized plane were those of John S. Miller, son of Mr. and Mrs. Eddie Slinger, son of Mr. and Mrs. Loren Slinger, who was rushed to Magic Valley Memorial Hospital with his wife, and two of their children, Mark, 6, and Bryan, 2. The only survivor of the family, Joe, 11, was fishing with a group of friends.

Illness Could Put "Muscle" In Demo Case

WALSTON, June 9—President Eisenhower's illness will not distract his political enemies from their efforts to defeat him.

It is the charge that the Republicans are seeking to elect a "weak" President—a man physically unequal to the demands of that office.

It is the fact that Vice President Nixon surely will be the choice of Mr. Eisenhower's running mate.

Mr. Nixon's recovery is

now so good that he

is expected to resume

his campaign to remind

that Mr. Eisenhower did

succeed in the failed

attempted term.

Debatable Issue

Whether those issues could be as major as many Democrats hope or not is debatable. There is any political difficulties, personal or monetary, would during this period urge a candidate to remain

in the pressure of the

and the presidential office

now and next November.

Shippers Get 20 Days to Protest

The state transportation commissioners said it would decide the request without a hearing if no objections are raised by that time.

The carriers had asked for a minimum increase of \$1.50 for shipping any commodity. They say their present minimum ranges from 85 cents to \$1.04 and are well below those in surrounding states.

Oliver Eddle, Jerome, practices a nearly lost art. He makes braided rawhide ropes and fancy trappings for horses. Two Changes Of Blood Put Into Triplets

NEW YORK, June 8.—Prematurely born triplets were reported in fair condition today after receiving two changes of their own blood supply in an emergency, unreported by the hospital where they were born.

City health officials said the chance of just one of the triplets being born with their parents' blood was one in a million. The chance for all was termed "astronomical."

No Other Cases Known.

Dr. John C. Ladd, director of the blood bank at St. Vincent's Hospital, where the transfusions took place, said he knew of no similar transfusions involving triplets.

The babies, a boy and two girls, are the children of Mr. and Mrs. John Payton, New Milford, N. J. Payton is employed by Pacific Mills of Twin Falls, Idaho. They have three other children.

The triplets all were born with Rh-positive blood, and their mothers were cross-reacted with their mother's negative antibodies.

Needed to Save Lives.

If their blood had not been replaced, the triplets would have suffered from "blood-cell destruction, leading to poisonous jaundice, usually fatal in premature infants."

They were born about one complete change of hours early yesterday less than two hours after their birth. They received the second yesterday afternoon, and the third yesterday evening. They will require extra care before their bodies quit producing RH-positive blood in the next few days.

Injury May Delay Bout With Moore For Championship

NEW YORK. June 9 (AP) — A million-dollar heavyweight production-in-Sepia picture between flashy Mike Patterson and light heavyweight champion Archie Moore hinted today on broken bone in Patterson's right hand. The future of the fourth matcascarbone—the little bone back of the knuckle—may prevent the 21-year-old Brooklyn prodigy from swinging his precious mitts for a period of six weeks to three months. That could doom an outdoor extravaganza in Yankee stadium. There was hope, however, that the healing time may be quicker.

"The Understanding of Love"

By R. E. CROW

(Pastor, First Baptist Church)

This week a local businessman told his wife that so far as our attitude towards others conditions our view-point of their actions.

My friend's wife is a "grower" of pride in Wilton. She takes care each season that she cultivates these beautiful flowers and awards them to the people who come to see the full colorful bloom. Just last week when I saw Mrs. Crow's plants were at the peak of their beauty. She looked out early one morning to see at least 50 stalks of iris in bloom. In the afternoon she showed them to be all perfectly cut with a pair of garden clippers.

Naturally she was angry. A number of comments were made about "those mean kids." However, a little further investigation revealed that the iris had been cut by the children who had come to see the cutting the evening before.

In telling me about the experience, my friend said: "You should have seen the change that came over my

wife when she found that out—one of his avowed and declared enemies. His reply was, 'Lord, God has given us men for long time, why shouldn't be patient with him for a little while?'

Fortunately God does see our actions with both understanding and love, and there is no better example of this than that of Jesus Christ, as God the Son, endured the Cross to bring us, his erring children, to our senses, and to save us from ourselves. May He give us the grace to love our fellowmen as He loves us, and thus to see them as He sees them.
